July 18, 1963

South Cache Water Users Association
Wellsville, Utah

Attn: Mr. Lamont M. Allan; Mr. Wm P. Leatham

Gentlemen:

Re: Little Bear Distribution
System

This will acknowledge your assessment payment of \$502.57
and your letter of June 5, 1963.

In your letter you give us an estimate of water used by
your association in 1962. You state you feel our records are not
correct as reported by the commissioner. A thorough check of
our records shows that the commissioner's report of 24,000 + acre-
feet appears in error. The 12,790 acre-feet, your estimate,
appears to be a more correct figure.

We have corrected our records accordingly and revised
our five-year average on which future assessments will be made
and will forward the information to our accounting department.
They may then make the indicated refund of \$47.00 due you or
credit your account against next year's assessment. I believe
this might be easier to handle.

We appreciate your cooperation in this matter.

Yours very truly,

Donald C. Norseth
